Many programs can be used when signing into the Gundersen Health System remotely. This creates the GHS desktop experience nested in a browser window, allowing you to do many tasks from home.

**Accessing Gundersen Health System Applications:**

1. Open the internet browser on the computer.
2. Go to www.gundersenhealth.org.
3. Scroll to the bottom of the main page.
4. Click the **For Employees** link under **Professional Resources**.
5. Click **Gundersen Health System Applications**.
6. Sign in with your username and password.
7. If this is your first time logging in, you will be prompted to register using the Duo enrollment wizard.

   Step-by-step instructions for the Duo enrollment wizard are available.
   - Open the [GHS Duo Device Management Portal](#) site.
   - Click the **Enrollment Guide** in the left pane for step-by-step enrollment instructions.

   Note: If you decide that you do not want to install the Duo Mobile app on your mobile phone, please select the Landline option. Please note that the Duo application does not track or monitor any of your personal information.

8. Click **eDesktop+** in the Desktops listing.

To authenticate with Gundersen Health System Applications, a phone configured with Duo Mobile will be required. This can be a landline to receive calls, or with the Duo Mobile app on a smart phone. The cell phone app will give a Push or Passcode option using the mobile app.
Mobile Phone Requirements for Duo:

**Android Version:** Android 7.0 Nougat and above are supported

**iPhone Version:** iOS 11 and above are supported

**IMPORTANT:** If your cell phone is not a supported version of iOS or Android, the ‘Landline’ version of Duo Enrollment will work with your cell phone.
