# 2022-2024 Community Health Implementation Plan

Approved by the Board of Trustees/Board of Governors on December 28, 2021

#### 2022-2024 Community Health Implementation Plan

In 2010, the Patient Protection and Affordable Care Act (PPACA or the ACA) was passed. As part of this health care reform bill, not-for-profit hospitals are required to complete a Community Needs Assessment and a Community Health Implementation Plan that addresses the identified needs. Evidence of meeting these requirements is to be provided on a hospital's annual tax Form 990, Schedule H. The following document summarizes the regional Community Needs Assessment, and details Gundersen Lutheran's Community Health Implementation Plan for 2022-2024.

The Gundersen Community Health Needs Assessment utilizes the COMPASS Now collaborative assessment that includes 6 counties in our service area, representing 70% of our hospital service patient population, and 42% of the overall population of our 22-county service region. The COMPASS Now assessment has been an ongoing community needs assessment in collaboration with the United Way and other community partners since 1995, with updates every three years.

The 22-county Health Indicator Report concurred with the COMPASS assessment priorities. However, reviewing the broader 22 county region assessment revealed a significant need not identified as a priority within the COMPASS process - obesity and diabetes.

The table below lists the community health needs identified as priorities in the 2021 COMPASS Now report and Gundersen 22-County Health Indicator Report. The prioritized needs align with our Population Health strategic priorities.

| COMPASS Now 2021<br>Priorities                          | 22-County Health<br>Indicator Priorities   | Gundersen Population<br>Health Priorities  |
|---|--|--|
| Mental Heath  | Suicide<br>Poor Mental Health Status<br>Provider Access  | Mental Health  |
| Substance Use   | Excessive Alcohol Use<br>Drug Overdose Death<br>Opioid abuse and deaths  | Substance Abuse (Opioids)  |
| Safe, Affordable Housing<br>Poverty/Financial Stability | Housing Insecurity Financial Insecurity — Poverty and Alice rates Food insecurity Transportation Adverse Childhood Experiences  Diabetes Tobacco Obesity Physical Inactivity | Social Determinants of Health (including poverty/financial stability, housing, food, and transportation insecurity) & Adverse Childhood Experiences and Toxic Stress Chronic Illness |

Our implementation plan, including goals, and action steps, resources, partners and outcome measures, addresses the top priority needs identified for the COMPASS Now 6 county region and the 22-County Health Indicator Report. The priorities are stated directly or embedded as an action step. In addition, the implementation plan supports the Health System's four population health initiatives that serve to strengthen our efforts to improve the health of our communities:

A link to the complete COMPASS Now 2021 assessment, 22-County Service Area Health Indicator Report and other related documents can be found at https://www.gundersenhealth.org/community-assessment/.

#### Approval & Dissemination

The 2021 Gundersen Needs Assessment with the 22 County Health Indicator report and 2022-2024 Implementation Plan were both presented to the Board of Trustees/Board of Governors on November 22, 2021 and approved on December 28, 2021. Progress is underway to implement the plan. The assessment and implementation plan are posted on the website and are available to the public through the Gundersen health libraries.

#### Identified Need/Issue: Social Determinants of Health

**Goal:** By 2024, Reduce number of patients reporting having food, housing, or transportation insecurity by 2% (baseline Q4 2022)

| Action  | Resource (program)   | Partnerships   | Measure of Impact   |
|---|--|--|---|
| Monitor and improve Social<br>Determinants of Health<br>screening and referral for<br>Gundersen Health System<br>patients and families  | Quality Population Health 211 findhelp.org Primary Care Social Services Nursing EPIC                     | Community Based<br>Organizations (CBOs)  | 95% of patients identifying and wanting assistance for food, housing or transportation will be referred to a community resource |
| Implement CRC workflow<br>for referrals for patients<br>experiencing stress/toxic<br>stress (initiated with the<br>SDOH survey)   | Quality Population Health 211 findhelp.org Primary Care Social Services Nursing EPIC                     | Community Based<br>Organizations (CBOs)  | 95% of patients with indicator(s) of stress/toxic stress wanting assistance, receive a referral to a community resource         |
| Investigate disparities for patient outcomes and develop strategies to address findings Possible disparities to consider:  - Explore colorectal or breast cancer screening, or tobacco cessation  - Street medicine | Quality Population Health Cancer Center Family Medicine Residency – Street Medicine program Primary Care | As defined by the intervention – CBO's, municipalities, funders, etc.  | Implement at least 1 intervention identified to address findings by 2024  |

## **Monitoring Long Term Outcomes**

This implementation plan aligns with the Gundersen Health System Community Health Scorecard. The Community Health Scorecard was created to identify key metrics and monitor progress of our organization's population health strategies which are the foundation of a primary mission, to improve the health of our communities. Common threads connect the community health needs assessment to the scorecard. Embedded within each metric are detailed goals, with many mirroring those of the implementation plan.

#### Population Health Scorecard Main Cover

| Creating a Resilient and Trauma Informed Community |   |       |  |
|--|---|-------|--|
| Disconnected Youth                                 | _ | 8.2%  |  |
| Teen Birth   |   | 12.1  |  |
| Child Abuse  |   | 6.2   |  |
| Violent Crime                                      | _ | 138.3 |  |

| Improving Mental Health and Reducing Substance Abuse |  |       |  |
|--|--|-------|--|
| Deaths of Despair                                    |  | 34.5  |  |
| Prevalence of Depression among Medicare              |  | 18.4% |  |
| Drug Overdose Deaths                                 |  | 18.9  |  |

| Overall Population Health        |  |       |  |
|----------------------------------|--|-------|--|
| Poor/Fair Health                 |  | 15.4% |  |
| Age-Adjusted Premature Mortality |  | 304.3 |  |

| Reducing Chronic Disease            |  |       |  |
|-------------------------------------|--|-------|--|
| High/Rising Risk Gundersen Patients |  | 36.8% |  |
| Smoking                             |  | 19.8% |  |
| Obesity                             |  | 33.2% |  |
| Prevalence of Diabetes              |  | 9.9%  |  |
| Prevalence of Heart Disease         |  | 5.9%  |  |
| Incidence of Cancer                 |  | 447.6 |  |

| Improving the Social Determinants of Health |  |       |  |
|---|--|-------|--|
| Food Insecurity 8.8%                        |  |       |  |
| Severe Housing Problems                     |  | 12.6% |  |
| Households with No Vehicle                  |  | 6.0%  |  |
