Clinical Experience and Education, MedEd-500

References

Applicable To

All program directors, residents and fellows of Gundersen Lutheran Administrative Services, Inc., independently and as agent for Gundersen Lutheran Medical Center, Inc., Gundersen Clinic, Ltd., Gundersen Lutheran Medical Foundation, Inc., Memorial Hospital of Boscobel Inc., Tri-County Memorial Hospital Inc., St. Joseph's Health Services Inc., Palmer Lutheran Health Center, Moundview Memorial Hospital & Clinics, Inc., and Saint Elizabeth's Hospital of Wabasha, Inc. (hereinafter referred to collectively as “Gundersen”).

Purpose Statement

Clinical Experience and Education must be monitored frequently so as to ensure complete compliance with the requirements set forth by respective accrediting bodies. Program directors will report to the Graduate Medical Education Committee (GMEC) at least quarterly (and more often if requested) what steps have been taken to assure and maintain compliance. This policy pertains to residents and fellows of all accredited programs but the ACGME guidelines are the standard that all programs must meet.

Definitions

Moonlighting: Extra clinical work a resident or fellow does outside of the scope of the training program.

At-Home Call: Call taken outside of the institution.
Implementation

Maximum Hours of Clinical and Educational Work per Week

- Clinical and educational work hours must be limited to no more than 80 hours per week, averaged over a four-week period, inclusive of all in-house clinical and educational activities, clinical work done from home, and all moonlighting.

Mandatory Time Free of Clinical Work and Education

- The program must design an effective program structure that is configured to provide residents/fellows with educational opportunities, as well as reasonable opportunities for rest and personal well-being.
- Residents/fellows should have eight hours off between scheduled clinical work and education periods.
  - There may be circumstances when residents/fellows choose to stay to care for their patients or return to the hospital with fewer than eight hours free of clinical experience and education. This must occur within the context of the 80-hour and the one-day-off-in-seven requirements.
- Residents/fellows must have at least 14 hours free of clinical work and education after 24 hours of in-house call.
- Residents/fellows must be scheduled for a minimum of one day in seven free of clinical work and required education (when averaged over four weeks). At-home call cannot be assigned on these free days.

Maximum Clinical Work and Education Period Length

- Clinical and educational work periods for residents/fellows must not exceed 24 hours of continuous scheduled clinical assignments.
- Up to four hours of additional time may be used for activities related to patient safety, such as providing effective transitions of care, and/or resident education.
  - Additional patient care responsibilities must not be assigned to a resident/fellow during this time. (Core)

Clinical and Educational Work Hour Exceptions

- In rare circumstances, after handing off all other responsibilities, a resident/fellow, on their own initiative, may elect to remain or return to the clinical site in the following circumstances:
  - to continue to provide care to a single severely ill or unstable patient;
  - humanitarian attention to the needs of a patient or family; (or,)
  - to attend unique educational events.
• These additional hours of care or education will be counted toward the 80-hour weekly limit.

**Moonlighting**

• Moonlighting must not interfere with the ability of the resident/fellow to achieve the goals and objectives of the educational program, and must not interfere with the resident/fellow's fitness for work nor compromise patient safety.

• Time spent by residents/fellow in internal and external moonlighting (as defined in the ACGME Glossary of Terms) must be counted toward the 80-hour maximum weekly limit.

• ACGME accredited Program PGY-1 residents are not permitted to moonlight.

• Moonlighting activities are at the discretion of the program director; require written permission from the program director; and may be suspended or discontinued if moonlighting has a detrimental impact on resident/fellow performance or well-being.

• Please see Institutional policy on Moonlighting for further information (MEO-300 (Policy Stat 10060405)).

**In-House Night Float**

• Night float must occur within the context of the 80-hour and one-day-off-in-seven requirements.

• The maximum number of consecutive weeks of night float, and maximum number of months of night float per year may be further specified by individual ACGME Review Committees and individual programs must comply as directed.

**Maximum In-House On-Call Frequency**

• Residents/fellow must be scheduled for in-house call no more frequently than every third night (when averaged over a four-week period).

**At-Home Call**

• Time spent on patient care activities by residents/fellows on at-home call must count toward the 80-hour maximum weekly limit. The frequency of at-home call is not subject to the every-third-night limitation, but must satisfy the requirement for one day in seven free of clinical work and education, when averaged over four weeks.
  
  ◦ At-home call must not be so frequent or taxing as to preclude rest or reasonable personal time for each resident.

• Residents/fellows are permitted to return to the hospital while on at-home call to provide direct care for new or established patients. These hours of inpatient patient care must be included in the 80-hour maximum weekly limit.

**Responsibilities**

The Administrative Director of Medical Education in Medical Education is responsible for the development and oversight of this policy.
**Residency/Fellowship Program Directors**: Provide oversight of clinical work and education, ensure 80-hour work rule is complied with, and approve moonlighting activities if applicable.

**Residency/Fellowship Coordinators**: Monitor resident/fellow schedules in accordance with 80-hour work rule/fellowship information. Remind residents/fellows as necessary to enter work hours into MedHub.
